

CONTOUR COLLECTION

if your walls could speak

Pattern: FP900
Surface Size: 20'(W) x 10'(H)
Plank Height Range: 3"-10-1/2"
Plank Width: 1"
Plank Gap: 2"

A new addition to the Fuller Architecture Panel collection that evolves standard slat wall offerings. The patterns are made up of individual planks that produce an undulating and dynamic effect. We replicate rocks, water droplets, sandy beaches, waves and mid-century modern patterns. Every design is completely customizable. Bespoke and tailored designs are welcomed. Planks are made using LUSSOCOR or PVC therefore won't rot or rust and are paint grade.

The Contour Collection brings your walls to life.
